

 We  need to  wave to  people  instead  of  shaking hands

 or hugging if  we are going for a walk or  

 walking the dog.  We  won't be able to  visit  friends or 

 family but  we  can  call them or  video  call them. 

 That  will be  very  hard for  us but it is  important

 to stay  safe.  We  don't need to  worry because  we

 will be  safe with  our  family  at  home.
